# 2019 Great Place to Work Certified

Bron is pleased to announce that we have been re-certified as a  
2019 - 2020 Great Place to Work.

Since our inception, our goal was to create a place where our employees are both happy and proud to come into work each day. Receiving this certification helps validate that we are reaching our goal. I am excited and humbled to say that, for the third consecutive year, Bron has been recognized as a Great Place to Work.

Our ability to develop the type of service our clients have come to expect begins and ends with Bron's most valuable asset, our associates. One of our core values as a company is "when we take care of our associates, they will take care of our clients." This certification shows that Bron has stayed true to our foundation values, even as we continue to grow each year.

On behalf of everyone at Bron, we would like to thank all of our clients, vendors, friends of Bron, and associates of Bron for all your support to help make this opportunity possible.
